Alameda County

Grantee: Alameda County

Amount Awarded: \$50,000.00

Grantee Contact: William Pollock

CalRecycle Grant manager: Linda Dickinson

Project Summary: Ventilation upgrades in the bulking rooms of the Hayward, Oakland and Livermore HHW facilities

Total Awarded for County:\$50,000.00

Butte County

Grantee: Town of Paradise

Amount Awarded: \$49,716.00

Grantee Contact: Ms Jennifer Arbuckle

CalRecycle Grant manager: Matthew Fong

Project Summary: The Town of Paradise (Paradise) requests \$49,716 to 1) expand our public education and outreach for general audiences with interactive HHW educational kiosks, direct mailers, community T.V. and radio ads; 2) set up a temporary refillable propane cylinder (1 lb.) exchange program that would reduce the waste produced by the hundreds disposable cylinders that swamp our HHW facilities at significant cost and educate the public about new refillable options; 3) provide minor improvements to our existing HHW facility, including new street/facility use signage and shelving for reusable item storage and 4) purchase of PPE and annual HAZWOPER refresher training for HHW employees.

Total Awarded for County:\$49,716.00

El Dorado County

Grantee: El Dorado County

Amount Awarded: \$49,655.00

Grantee Contact: Mark Moss

CalRecycle Grant manager: Matthew Fong

Project Summary: Grant funds will be used for the following:

- 1) Two household hazardous waste community events in remote areas of the County of El Dorado
- 2) Replacement of Personal Protection Equipment
- 3) Heat Stress study at permanent household hazardous waste facility

Total Awarded for County:\$49,655.00

Humboldt County

Grantee: City of Fortuna

Amount Awarded: \$40,000.00

Grantee Contact: Mr. Mike Johnson

CalRecycle Grant manager: Linda Dickinson

Project Summary: To provide a one day temporary HHW collection event in the City of Fortuna. The City of Fortuna is a Disadvantaged Community (appx 65% CA MHI), not a member of the local waste management JPA and lacks a complete HHW program. The local franchise hauler has signed a contract with Paint Care to accept architectural paint and accepts ewaste 7 days a week for no charge to provide proper disposal/recycling of those materials.

Grantee: Humboldt Waste Management Authority

Amount Awarded: \$60,117.00

Grantee Contact: Mr Brent Whitener

CalRecycle Grant manager: Linda Dickinson

Project Summary: Hold two HHW one-day temporary collection events in the rural under served communities of Orick and Weott, utilize print and electronic media advertising to increase awareness of HHW fixed facility and annual mobile collection events, design flyers web site and social media campaigns to raise awareness of HHW Program, purchase fork lift for PHHWCF, purchase PPE for staff working the fixed facility and mobile HHW events during the grant period.

Total Awarded for County:\$100,117.00

Lake County

Grantee: Lake County

Amount Awarded: \$45,000.00

Grantee Contact: Mrs Kati Galvani

CalRecycle Grant manager: Linda Dickinson

Project Summary: Public Services Department has been working collaboratively with Lake County Waste Solutions and South Lake Refuse and Recycling (the two local County franchise haulers) to enhance the existing program of the collection and disposal of HHW by providing a temporary but consistent location for materials to be dropped off. The events would occur periodically 6 times annually with the option of splitting events to create 12 - ½ day events in order to meet the State guidelines for a temporary facility. The County of Lake would like to alleviate the need for the mobile unit from Mendocino County – (HazMobile) and for convenience and habit create consistent drop off sites that would cover a variety of needs and would encourage individuals to recycle, properly dispose of HHW, and this would potentially prevent some of the illegal dumping that occurs in the County.

The County of Lake is currently working collaboratively with both haulers to advertise and support Paint Care and Sharps disposal sites at both ends of the Lake. This only makes sense to also support the facilities in becoming somewhat of a one-stop shop for residents to drop off all their HHW. This funding would be used to do minor improvements to the existing facilities by helping to provide signs and appropriate bins as needed for the collection events. Public Services would assist in the advertising by providing educational outreach and marketing for the community. The facility would be operated by two HAZWOPPER trained staff at all times and appropriate equipment and gear would be utilized at every event in each location. County of Lake Public Services, Southlake Refuse, and Lake County Waste Solutions are working collaboratively on marketing and advertising to capture a large portion of the population by looking at new avenues for reaching specific target audiences.

The purchase of promotional items for safely disposing HHW materials will be provided by the Public Services Department while funding and supplies last to promote, encourage, and support the community in their efforts to work toward the statewide goal of recycling more.

Total Awarded for County:\$45,000.00

Los Angeles County

Grantee: City of Santa Monica

Amount Awarded: \$30,000.00

Grantee Contact: mr wes thompson

CalRecycle Grant manager: Harnak Samra

Project Summary: The City of Santa Monica's Resource Recovery and Recycling Division (R3) will use funds to continue publicizing home collection of HHW by City contractor. At least two direct mailers to educate residents on the HHW collection program are planned
R3 anticipates using some funding for a pilot drop off program for gas cylinders. The program could fill an existing void in the current home collection program. The gas cylinders are not included in materials collected by the current program

Grantee: Los Angeles County

Amount Awarded: \$100,000.00

Grantee Contact: Tranette Sanders

CalRecycle Grant manager: Baljot Biring

Project Summary: The County, in partnership with the Sanitation Districts of Los Angeles County, is proposing to conduct a public education general awareness campaign to reinforce the message on the proper disposal of home-generated sharps waste for residents in Los Angeles County. Various media methods, including a media buy, billboards, newspaper advertising, and public education and outreach events will also be utilized to maximize awareness to the general public.

Total Awarded for County:\$130,000.00

Madera County

Grantee: Madera County

Amount Awarded: \$30,000.00

Grantee Contact: Mr. Ahmad Alkhayyat, P.E.

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Provide multiple one-day household hazardous waste collection event in Eastern Madera County. Provide outreach education program to promote the reduction of HHW entering the waste stream by encouraging proper use and disposal of hazardous products, proper storage and handling methods to protect the public's health and safety.

Total Awarded for County:\$30,000.00

Mariposa County

Grantee: Mariposa County

Amount Awarded: \$36,585.00

Grantee Contact: Mr. Greg Ollivier

CalRecycle Grant manager: Matthew Fong

Project Summary: This project will provide HHW and EPR education and outreach programs to County residents, including, but not limited to, ads in regional media, educational activities for children, a display for use at the County fair and other events, a 15-month calendar with information on each page plus a 2-page spread, full-color HHW and paint recycling brochures and establishment of a battery recycling program through Call2Recycle. Funds will also be used to purchase personal protection equipment and to pay for the 8-hr refresher HAZWOPER training for staff, which will allow additional HHW collection events to be held.

Total Awarded for County:\$36,585.00

Orange County

Grantee: Costa Mesa Sanitary District

Amount Awarded: \$48,281.00

Grantee Contact: Ms. Elizabeth Pham

CalRecycle Grant manager: Barbara Baker

Project Summary: This individual grant application proposes to expand the promotion and collection of Battery Recycling programs in Costa Mesa schools, promote the public outreach for the Door-to-Door HHW program for seniors and disabled residents, and to promote and set-up a one-day Household Hazardous Waste (HHW) collection event.

The Costa Mesa Sanitary District (CMSD) has funded and implemented an 8-month Battery Recycling pilot program that includes five schools as participants. CMSD desires to increase the number of schools involved in the project and to use grant funds to promote the program for the following year.

CMSD proposes to increase the promotion of public outreach for our Door-to-Door HHW collection program for seniors and disabled residents. This program assists residents who do not have the ability to recycle or dispose of their hazardous materials at permanent HHW facilities, by offering a free curbside pick-up.

CMSD has worked with the OC Waste and Recycling and Orange Coast College to coordinate the community's first HHW collection event in 2012. The event successfully diverted 36,000 pounds of HHW away from the landfills.

If awarded, CMSD will use the grant funds for the following programs:

- Battery recycling program (multi-day collection event for schools) in the amount of \$20,000
- Public Education for the Door-to-Door HHW Program for Seniors and disabled residents in the amount of \$5,000; and
- HHW Collection Event (\$25,000)

As required by CalRecycle, and to be consistent with CalRecycle's core values, the CMSD has adopted and implemented an Environmentally Preferable Purchasing and Practices Policy since 2008. Ordinance No.66 stated that the CMSD adopted a preference and exception for environmentally friendly products in purchasing and has since been added to the Operation Code Section 4.05.035 on April 21, 2008.

Total Awarded for County:\$48,281.00

Placer County

Grantee: Western Placer Waste Management Authority

Amount Awarded: \$100,000.00

Grantee Contact: Stephanie Ulmer

CalRecycle Grant manager: Linda Dickinson

Project Summary: The funds will be used for management and disposal of non-explosive household hazardous waste aerosols and aerosol by-products and will include aerosols dropped off by residents at the PHHWCF and recovered from MRF processing. The WPWMA's HHW facility operator processes a daily average of 3,000 aerosol containers, the majority of which are recovered through MRF processing of MSW. The WPWMA's HHW operator has identified the need for a secondary/replacement aerosol processing unit to keep up with the large quantities recovered. A portion of the funds will be used to research alternative improved processing methods, equipment and disposal options.

Total Awarded for County:\$100,000.00

Riverside County

Grantee: City of Palm Desert

Amount Awarded: \$44,000.00

Grantee Contact: Ms. Frankie Riddle

CalRecycle Grant manager: Barbara Baker

Project Summary: The City's proposed project is to hold three FREE one-day Household Hazardous Waste (HHW) Collection Events during the term of this grant. The City plans to target the 120 multifamily housing complexes (approximately 6,200 units) and approximately 3,600 businesses located in Palm Desert. The proposed one-day events will be conducted at the City's existing PHHWF.

With the educational aspect of this proposal, the City's goal is to increase awareness and participation of the existing At-Home HHW Collection and CESQG programs.

Grantee: City of Riverside

Amount Awarded: \$50,000.00

Grantee Contact: Mr. Archie Washington

CalRecycle Grant manager: Barbara Baker

Project Summary: Create HHW Public education and outreach by creating informational flyers with an education component for battery and bulb proper and safer disposal with collection activities.

Expand education for residents. Staff will have an informational booth at various City sponsor events such as the "Riverside Show & Go", "Mission Inn Run", etc.

Increase Public education on HHW and by creating informational flyers with an education component for proper disposal of household batteries, CFL's and fluorescent lamps. Including information on extended producer responsibility collection opportunities. Expand distribution of educational information by additional sources such as Utility inserts.

Update and expand the City's website information for residents to find an easy access for HHW information and the harmful effects on the environment if illegally or incorrectly dispose.

Set-up and operation of temporary HHW facilities one-day collection events for household batteries, CFL's and fluorescent lamps. Including attendance of required employees at HHW event personnel protection equipment and attendance for 8-hour refresher Hazardous Waste Operations and Emergency Response Standards (HAZWOPER) training. Create opportunity for collection of battery and bulb disposal events for residents to dispose of these items safely at least 2-4 annual event collection events within the City of Riverside of Riverside.

Total Awarded for County:\$94,000.00

Sacramento County

Grantee: City of Elk Grove

Amount Awarded: \$38,900.00

Grantee Contact: Mr Christian Punsal

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Regional Grant. This program will be a new program and may involve more than this regional application. The City of Elk Grove will draft an RFP and work to select a firm that will offer small camping size refillable gas cylinders, and negotiate a contract; this will allow other Cities to piggyback on the Cities contract. The City and CPSC staff will work to get distribution locations set up who will offer to refill the small gas cylinders. The contracted company will then provide the small cylinders to the City and distributions locations. Distribution centers will then offer a smaller gas cylinder to any resident who delivered an empty gas cylinder for disposal, the company will provide the refilling value to each location in the program. The grant will fund the purchase of the cylinders, refilling values and the residents will get the cylinder at no cost at any of the locations who agree to participate in the Grant. Going forward the refillable cylinders will be filled at various filling locations within the City who agree to participate in the program for a fee. CPSC staff will contact large companies like Home Depot, WalMart and U-Haul and get their participation in the program.

Total Awarded for County:\$38,900.00

San Benito County

Grantee: San Benito County Integrated Waste Management Regional Agency

Amount Awarded: \$68,568.00

Grantee Contact: Ms Sara Fontanos

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Regional Agency project which will provide educational outreach for HHW including batteries, cell phones, fluorescent lighting and other materials as well as provide new collection opportunities at retail sites

Total Awarded for County:\$68,568.00

San Bernardino County

Grantee: City of Colton

Amount Awarded: \$7,500.00

Grantee Contact: Mrs.Jessica Sutorus

CalRecycle Grant manager: Annabel Farrall

Project Summary: City of Colton would like to provide HHW public education and outreach for our English and Spanish speaking community. City of Colton would utilize the funding to design, print and create brochures and mailers that would educate the community on the many products found in homes that contain chemicals potentially harmful to both people and the environment in both English and Spanish. The remaining funds would be utilized to purchase a 42" free standing digital ePoster. Reducing paper waste whenever possible is a goal of the Department. The Digital ePoster allows staff to update content information about HHW and be able to advertise used oil filter exchange programs and Sharp disposal locations along with the locations of HHW facilities. The ePoster graphics would also educate the community on what common chemical products such as oven cleaners, paint removers, bug killers, solvents, and drain cleaners, are found in the home. Although legislation has mitigated some of the problems associated with commercial hazardous material disposal, more needs to be done to reduce and properly dispose of home hazardous wastes.

Total Awarded for County:\$7,500.00

San Diego County

Grantee: San Diego County

Amount Awarded: \$50,000.00

Grantee Contact: Melissa Porter

CalRecycle Grant manager: Barbara Baker

Project Summary: San Diego County proposes to utilize HD23 Grant funds to sponsor two (2) one-day HHW collection facility events (THHWCF) in underserved portions of the unincorporated County of San Diego. One event will be held in the Valley Center area and is expected to serve at least 500 households. The second event will be held in the very rural Dulzura / Potrero area of the unincorporated County and is expected to serve approximately 100 households.

Total Awarded for County:\$50,000.00

San Joaquin County

Grantee: San Joaquin County

Amount Awarded: \$90,000.00

Grantee Contact: Mrs.Elisa Moberly

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The County seeks to increase HHW collection by holding two additional mobile collection events in remote and underserved areas, targeting senior, rural, and low income residents. A media campaign will inform residents of numerous take back programs for universal waste around the County, increasing proper disposal and lessening the burden on the HHW facility. A pneumatic tool system utilizing existing air compressor and air lines, new lab pack and sorting tables, and industrial shelving units will upgrade infrastructure and improve material management.

Total Awarded for County:\$90,000.00

San Luis Obispo County

Grantee: San Luis Obispo County Integrated Waste Management Authority

Amount Awarded: \$93,386.00

Grantee Contact: Mr. William Worrell

CalRecycle Grant manager: Annabel Farrall

Project Summary: This project includes two tasks that will make a minor improvement to an existing PHHWCF and facilitate the expansion of an EPR retail take back program. This first task is concrete pavement at the Paso Robles Landfill PHHWCF. The second is the purchase of an 18 foot CNG cargo truck to service the increasing amount of household batteries, fluorescent tubes, paint and mercury thermostats received at existing and new retail take back locations.

Total Awarded for County:\$93,386.00

San Mateo County

Grantee: San Mateo County

Amount Awarded: \$75,550.00

Grantee Contact: Julia Au

CalRecycle Grant manager: Linda Dickinson

Project Summary: San Mateo County would like to expand its fluorescent light take-back program by conducting in person trainings to stores to better prepare them for acceptance of fluorescent lights; recruit new stores to participate in the program, secure permanent disposal options for sites; create and distribute print collateral materials; secure and participate in events at local hardware stores to educate the public about proper fluorescent light disposal.

Total Awarded for County:\$75,550.00

Santa Clara County

Grantee: City of Sunnyvale

Amount Awarded: \$87,846.00

Grantee Contact: KareKaren Gissibl

CalRecycle Grant manager: Linda Dickinson

Project Summary: The grant funding would be used to implement a new regional outreach program to encourage residents to purchase and reuse one pound gas cylinders. It would include outreach and education to residents who use propane canisters and include promoting the environmental benefits, availability and use of the refillable cylinders and location of various retailers who could or do sell them. Funding would also cover outreach at various venues such as community parks and sports fields where residents use the cylinders. The City of Sunnyvale will be the lead agency and coordinate efforts with the cities of Palo Alto and Mountain View, the partners that bring trash and recyclables to the Sunnyvale Materials Recovery and Transfer Station (SMaRT Station). The California Product Stewardship Council (CPSC) will be subcontracted to develop the outreach materials and conduct the outreach and education.

Total Awarded for County:\$87,846.00

Santa Cruz County

Grantee: Santa Cruz County

Amount Awarded: \$88,451.00

Grantee Contact: Mr. Kasey Kolassa

CalRecycle Grant manager: Linda Dickinson

Project Summary: The County of Santa Cruz will be the lead agency for a regional project to provide a comprehensive bilingual public education program utilizing print, TV, radio, social and other media to educate residents about proper disposal of all HHW and the range of options available, including convenient and cost-effective retail take-back. Outreach will cover products including fluorescent lamps, e-waste, motor oil, paint, household batteries, cell phones, and refillable gas cylinders. The project will also establish up to forty new convenient retail collection locations for all household batteries and cell phones.

Total Awarded for County:\$88,451.00

Siskiyou County

Grantee: Siskiyou County

Amount Awarded: \$100,000.00

Grantee Contact: Mr. Arthur Boyd

CalRecycle Grant manager: Matthew Fong

Project Summary: The County of Siskiyou would like to contract a service provider to hold temporary HHW collection events throughout a geographically large area to serve as many rural households as possible. Grant funds will also be used to design and distribute public awareness materials including radio and newspaper advertisements both to notify and educate the public.

Total Awarded for County:\$100,000.00

Solano County

Grantee: City of Vacaville

Amount Awarded: \$15,725.00

Grantee Contact: Ms Ivonne Vaughn

CalRecycle Grant manager: Ashraf Batavia

Project Summary: Our project includes (1) a minor improvement to our existing HHHW facility. We will be purchasing a Tuff Shed to properly store our Hazardous Waste packing material and (2) a Hazardous Waste information advertising campaign that will include: local Radio, Bus Advertising and direct mailing through City of Vacaville

Total Awarded for County:\$15,725.00

Stanislaus County

Grantee: City of Turlock

Amount Awarded: \$27,000.00

Grantee Contact: Mr. Garner Reynolds

CalRecycle Grant manager: Ashraf Batavia

Project Summary: The City of Turlock is proposing to contract with an outside agency to run a mobile household hazardous waste collection day, three (3) times a year. The waste will be collected from residents, packaged, and shipped to appropriate recycling/disposal facilities by the contractor. The objective is to continue this collection program that provides Turlock residents a safe alternative for household hazardous waste disposal, and to reduce incidents of illegal disposal and injury to the public and the environment.

Total Awarded for County:\$27,000.00

Ventura County

Grantee: City of Thousand Oaks

Amount Awarded: \$98,720.00

Grantee Contact: Mr. John Brooks

CalRecycle Grant manager: Annabel Farrall

Project Summary: The City of Thousand Oaks is partnering with the cities of Camarillo and Moorpark to raise regional awareness around integrated pest management. The program will use the Got Ants! program developed in conjunction with the California Department of Pesticide Regulation and the San Francisco Estuary Partnership. The program, along with public outreach at local events, will seek to educate home owners about the potential for IPM in their home and motivate them to encourage hired landscape and pest management professionals to do the same. Research has shown that many homeowners are unaware of what chemicals are used by hired professionals. Research has also shown that targeting hired landscape and pest management professionals directly is challenging due to informal license arrangements and are less motivated by environmentalism. Targeting homeowners creates an economic incentive for hired professionals to consider IPM practices.

Total Awarded for County:\$98,720.00

Grant Count: 27

Grand Total for Selected Counties: \$1,575,000.00
